OUR PRIDE AND JOY: PRODUCTS FOR THE PATIO

PATIO

Patio products from WOUNDWO consist of a wide spectrum of awnings of all types, which offer the right solution for every requirement, for every taste, for every imaginable building or housing situation. The range is carefully coordinated, combinable and even more customisable through a multiplicity of options and adjustment possibilities! Our aim is that every customer can be fitted with his "very own" patio product.

YOU DECIDE.

OPEN AWNINGS

Open awnings in all their diversity and class are the undisputed best-seller when it comes to sun protection. With our TOPLINE, TRENDLINE and SWINGLINE – also available in the PLUS variant – we have the right offer in our product range for every requirement, for every taste and for every budget! Depending on the product, a large number of options are available to you: equip your awning with an extendable Vario valance to protect against the low-lying sun, with sun and wind monitors, which offer special automatic functions, with integrated light strip, patio heater, or swivel mechanism. Choose between crank, motor or radio-controlled motor operation or io-Homecontrol. Install your awning on the wall, the ceiling or on the rafters. Use a single, double or even triple installation, to provide shade for an area up to 19x4 metres, etc., etc., etc.!

Nothing is as important for the reliability and durability of an awning than fully developed, qualitatively perfect mechanics. Therefore all WOUNDWO pivot arm awnings are only made of high-quality and corrosion-resistant materials and coatings. For this, depending on the product, we give you up to 7 years' guarantee! As with all WOUNDWO awnings, here too a large selection of frame and fabric colours is available for you to freely choose and combine. Make these awnings your awnings!

CLASSIC

THE BEST SELLER

ENCLOSED AWNINGS

Enclosed awnings are absolutely the best-seller and also very clever: the attractive aluminium box not only protects the fabric but also the pivot arms from environmental effects! With our TOPLINE CASSETTE, TRENDLINE CASSETTE, TRENDLINE SUNBOX and SWINGLINE CASSETTE we have the right offer in our product range for every requirement, for every taste and for every budget! Depending on the product, a large number of options are available to you: equip your awning with an extendable Vario valance to protect against the low-lying sun, with sun and wind monitors, which offer special automatic functions, with integrated LED spotlights or patio heater. Choose between crank, motor or radio-controlled motor operation or io-Homecontrol. Install your awning on the wall, the ceiling or on the rafters. Use a single, double or even triple installation, to provide shade for an area up to 19x4 metres, etc., etc., etc.!

Nothing is as important for the reliability and durability of an awning than fully developed, qualitatively perfect mechanics. Therefore all WOUNDWO pivot arm awnings are only made of high-quality and corrosion-resistant materials and coatings. For this, depending on the product, we give you up to 7 years' guarantee! As with all WOUNDWO awnings, here too a large selection of frame and fabric colours is available for you to freely choose and combine. Make these awnings your awnings!

CONSERVATORY AWNINGS

Do you have a conservatory, a terrace roof or other large glass areas? Then create your own little paradise, give it the final touch, ensure a perfect room climate with a perfect look. Crown your conservatory with our XLINE or treat yourself to an ingenious XLIGHT: this is mounted onto the underside of glass roofs and is characterised by extremely delicate guide tracks as well as a very small box size. They are installed using clip-on brackets, which can be easily removed again. The XLIGHT can also be used as a façade-mounted awning. It can be up to 5x4 metres in size; the XLINE up to 6x6 or 4x7m – it is even possible to couple several installations together!

Both products can be operated conveniently with motor, crank handle or radio-controlled motor. Like all our awnings, the XLINE and XLIGHT are CE-tested. High quality and corrosion resistant materials and coatings guarantee a long lasting product. We promise you this with an impressive 5 year guarantee! As with all WOUNDWO awnings, here too a large selection of frame and fabric colours is available for you to freely choose and combine. Make these awnings your awnings!

THE HIGHLIGHT

YOU DECIDE.

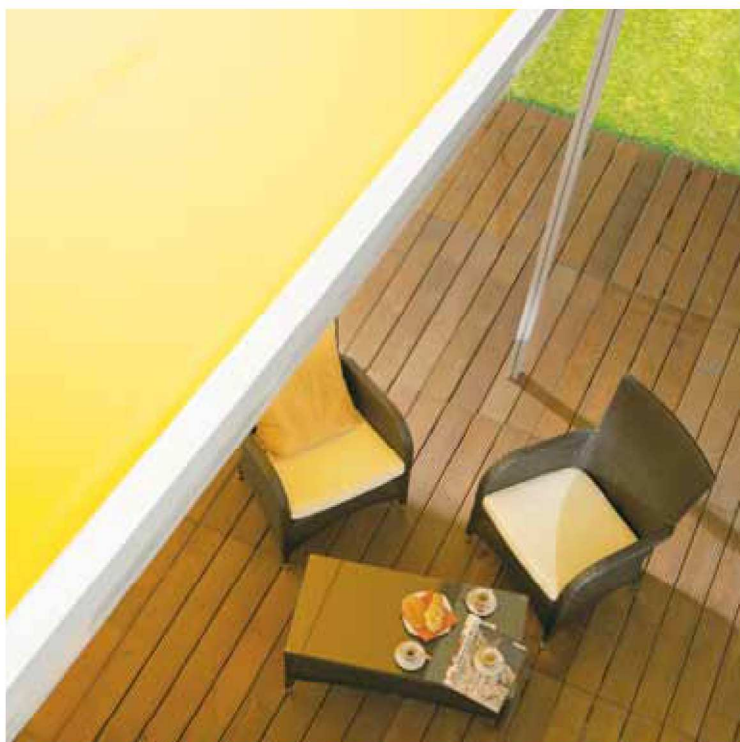

COMFORTABLE

PERGOLA AWNINGS

The supported textile patio shading, the PERGOLINE, not only protects against the sun, but also the weather. Whether as a practical textile patio roof or as a covered smokers' zone in an outdoor catering area: it simply protects everything perfectly! And it does so in every imaginable size – the PERGOLINE can either be used individually, coupled, or in combination with other patio products from WOUNDWO! This all-round protection is supplemented by diverse, ingenious installation variants and extras: equip the PERGOLINE with a light strip, patio heater, the perfect operating variant for your needs, or print your fabric with an individual motif!

Speaking of fabrics: As with all WOUNDWO awnings, here too a large selection of frame and fabric colours is available for you to freely choose and combine. Make these awnings your awnings! Like all our blinds, the PERGOLINE is also CE-tested. High quality and corrosion resistant materials and coatings guarantee a long lasting product. We promise you this with an impressive 5 year guarantee!

LARGE AREAS AWNINGS

Nothing is as important for the reliability and durability of an awning than fully developed, qualitatively perfect mechanics. Therefore all WOUNDWO pivot arm awnings are only made of high-quality and corrosion-resistant materials and coatings. For this, depending on the product, we give you up to 7 years' guarantee! As with all WOUNDWO awnings, here too a large selection of frame and fabric colours is available for you to freely choose and combine. Make these awnings your awnings!

Our WINGLINE is the freestanding awning for patio and outdoor restaurant area. With their maximum size of up to 6.5x9 or 7x8 metres and therefore a total shaded area of up to 58 m², there is nothing left to be desired. A continuous aluminium roof protects the mechanics and fabrics! In addition, you can equip your WINGLINE with an extendable Vario valance to protect against low-lying sunshine, a patio heater or light strip, to make the area even more comfortable for you and your guests. The awning is fixed by uprights, which are installed on a reinforced base. You can also install your WINGLINE with a one-sided mounting on the wall. It is controlled by a motor, which you can also operate by means of a remote control if you wish.

DISCREET

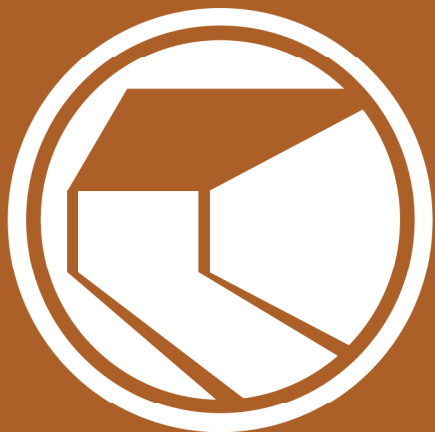

SIDE SCREEN AWNINGS

If you combine sophistication with living quality, the result is clearly our side screen awning, the SIDELINE! Protect your privacy with style, tailor-made and with individual colours. The SIDELINE is up to 2x4 metres in size, or, in the slope version, up to 2.5x4 metres, and it also has a large number of ingenious installation variants and extras. Perfectly combinable with other WOUNDWO products!

As with all WOUNDWO awnings, here too a large selection of frame and fabric colours is available for you to freely choose and combine. Make these awnings your awnings! Also as is standard for all of our patio products: the SIDELINE is CE tested. High-quality and corrosion-resistant materials and coatings guarantee a long lasting product, which you can enjoy with every ray of sunshine. We promise you this with a 5 year guarantee!

YOU DECIDE.

FREE-STANDING AWNINGS

Our freestanding awning, the FREELINE, is suitable for use as flexible shading for patios, pergolas and beer gardens. It doesn't need to be attached to a building: the installation is mounted freestanding on two steel supports, which are anchored in the concrete foundation. With their size of up to 5x5 metres, they offer innumerable ways of improving your life. The FREELINE can always move with you! Are you moving house? Simply dismantle and reconstruct elsewhere! This is only one of the numerous examples of use for this unbelievably flexible and reliable product.

As with all WOUNDWO awnings, here too a large selection of frame and fabric colours is available for you to freely choose and combine. Make these awnings your awnings - for example, with an individually printed fabric! Our FREELINE is, like all of our patio products, CE tested. High quality and corrosion resistant materials and coatings guarantee a long lasting product!

FLEXIBLE
